ABOUT ME

I have a solid 8-year experience in the highly dynamic environment of a startup, showcasing my flexibility and ability to think outside the box. I helped build a web-based health tech company from the ground up, demonstrating my skills in healthcare informatics and web development. As a key decision-maker, I'm well-versed in all technical aspects and my pivotal decisions have significantly influenced the technological direction and subsequent growth of the company.

WORK EXPERIENCE

Software Engineer, Kara Connect, Reykjavik

Jun 2015 - Mar 2023

With 7+ years of service, significantly influenced the development flow and formation of a web-based health tech platform.. Commended for problem-solving, technical proficiency, continuous learning, and teamwork.

EDUCATION

Bachelor of Science, Reykjavik University, Reykjavik

2015
